

The Baker Barn Saint Bernards of Ohio

New Owner Resource Guide

Welcome

Congratulations on your new Saint Bernard puppy! Thank you for trusting The Baker Barn. We are always here to answer questions throughout your dog's life.

First 72 Hours

Keep your puppy on the same food for at least a week, provide fresh water, allow plenty of rest, and schedule a veterinary visit within 72 hours.

Feeding

Feed a high-quality large-breed puppy food 3 meals daily until about 6 months, then transition to 2 meals daily. Avoid sudden food changes.

Vaccinations & Deworming

Continue your veterinarian's recommended vaccination schedule. Keep copies of all health records.

Training & Socialization

Begin positive reinforcement training immediately. Introduce your puppy to new people, places, sounds, and experiences gradually.

Exercise

Avoid excessive jumping, long-distance running, or strenuous exercise while your puppy is growing. Short walks and supervised play are ideal.

Grooming

Brush weekly, clean ears regularly, trim nails every 3–4 weeks, and brush teeth several times each week.

Supplies

Crate, large-breed puppy food, stainless bowls, collar, leash, ID tag, grooming brush, nail clippers, enzymatic cleaner, toys, and a large orthopedic bed.

Health Watch

Contact your veterinarian if your puppy has persistent vomiting, diarrhea, lethargy, refuses food, difficulty breathing, or signs of injury.

Lifetime Support

Questions are always welcome. We love receiving updates and photos as your puppy grows!
